08.30-09.00: Doors Open

Morning coffee & networking

09.00-09.15: Opening Introduction

Moderator:

*General Counsel **Jon Iversen**, Energinet*

09.15-09.55: I Predict a Riot

AI is transforming the way we work, and if you think learning to prompt will save you, it won't! The ones who'll survive aren't LegalTech operators, they're artists. They reinvent what lawyers do and how they do it. Everyone else won't even notice the riot until it's over.

***Erik P.M. Vermeulen**, Professor of Business & Financial Law, Tilburg University / Senior Legal Counsel, Signify*

09.55-10.30: Defining a Legal Tech Strategy

In today's rapidly evolving legal landscape, having a robust strategy for leveraging legal technology is essential for success. But how can legal professionals effectively develop a strategy that is not only achievable but also transformative for their legal departments? Join Theis Kærn Poulsen, who leads the legal tech strategy work at Group Legal in Danske Bank A/S, as he shares valuable insights and proven approaches from his experience. This presentation aims to inspire attendees with insights and ideas that can help them navigate the complexities of legal tech and elevate their legal practice.

*Head of Regulatory Legal **Theis Kærn Poulsen**, Danske Bank*

10.30-10.45: Legora Feature Showcase: The Next Leap in Legal Tech

Building together — for every lawyer, every task, everywhere. Discover how Legora's latest features are redefining what lawyers can expect from their tools. Legora is unveiling foundational leaps that will transform how legal work is done — setting new precedents for speed, collaboration, and quality across the industry.

*Director of Engagement **Michelle Cotter**, Legora*

10.45-11.05: Coffee & Networking

11.05-11.35: Implementation of Contract Lifecycle Management

Having a Contract Lifecycle setup becomes more and more relevant for organizations. But how are the organizations to achieve this and what steps are necessary to even begin the journey.

*EVP Group General Counsel **Patrick Figiel-Kibsgaard**, DSV A/S*

11.35-12.05: SimCorp's CLM Journey – Turning Contracts Into Assets

Martin will, based on his experiences leading and sponsoring the CLM project in SimCorp, highlight opportunities and threats. The main outset will be taken in the selection and implementation of a Contract Lifecycle Management solution in a Global Fintech cloud provider.

*Senior VP Group Advisory and Support **Global Finance, IT & Legal Management** **Martin Schak Møller**, Simcorp A/S*

12.05-12.20: A Safe(r) Pathway to a Successful CLM Implementation

In most large private and public sector organizations there is an awakening to the opportunities a more professional approach to the Contract Management discipline can offer as well as the need to automate and digitalize the contracting processes in a Contract Lifecycle Management system. Legal has a great opportunity to play a key role in this transformation. Rasmus will share some key focus areas and point of attention as well as practical advice on important preparation steps and do's and don't in a CLM project.

*Director **Pernille Hjulmand Bundgaard**, ARC Contract Management*

12.20-12.40: Panel Discussion

12.40-13.40: Lunch

13.40-14.15: Getting Value from AI & Data

How to get started with AI. Examples from Falck's AI journey, so far, the future ambition, and the challenges ahead. How can legal teams begin to unlock the value of data and what may be the obstacles along the way?

*General Counsel, SVP, member of Executive Management team **Miguel Buxó**, Falck*

*Peter Kaas, Head of Digital Legal & Compliance, Senior Director **Peter Kaas**, Falck*

14.15-14.30: How Karnov Brings Data Into Action With AI

A year ago, Karnov Group launched their AI assistant KAILA, offering lawyers a new way to work with legal research. Since then, KAILA has been continuously updated, adapted to new user groups, and expanded with additional features.

At the conference, Peter Riise, Technology Director Markets and Platforms at Karnov Group, will share insights from the development journey and discuss how working with data and AI can open new opportunities in close collaboration with users.

*Technology Director Markets and Platforms **Peter Riise**, Karnov Group*

14.30-14.45: Why Legal AI Starts With Data

Legal AI can only be as good as the data behind it. Without high-quality, structured and well-governed data, even the most powerful AI tools risk becoming inefficient, biased – or simply useless. In this session, PSA explores why data governance and data quality are not just technical details, but critical success factors for legal teams working with AI – and how to get them right.

*Chief Sales Officer **Stefan Kim**, PSA*

14.45-15.00: The Next Wave of Legal Research

Legal research is entering a new era.

With Pandektes, lawyers and legal professionals can navigate seamlessly across national and EU law, case law, and regulatory sources all gathered on one platform.

CEO & Co-founder of Pandektes explores how legal professionals use Pandektes today to save time, enhance quality, and gain deeper insights into complex legal frameworks. We'll also look ahead towards a future where multijurisdictional search will be possible, where collaboration across jurisdictions becomes effortless and legal knowledge accessible from anywhere.

*CEO & Co-founder **Casper Laursen**, Pandektes*

15.00-15.25: Coffee & Networking

15.25-15.55: Rewriting the Rules: Our GRC Transformation Story

At Energinet, our GRC journey is about moving beyond silos and putting people back at the heart of governance, risk, and compliance. Discover how we're turning GRC from a party killer into a strategic enabler – through change management, gamification, and the rollout of Copilot agents. The GRC system remains our backbone, but true transformation happens where technology meets the human side of GRC.

*Chief GRC specialist **Kristina Wiese Tranberg**, Energinet*

15.55-16.25: M&A and AI – How Technology is Already Transforming Transactions

Having worked with AI for several years, Andreas Hertel and Tue Goldschmieding from Gorrissen Federspiel reflects on the AI and legal tech journey and the lessons that Gorrissen Federspiel has learned working with AI. The presentation will also cover how the implementation of AI is transforming the ways of working and the use cases that are having the biggest impact on client engagements. Finally, Andreas and Tue will share their expectations and predictions for the future and how Gorrissen Federspiel is preparing for the next wave of AI in the legal industry.

Partner **Andreas Hertel**, Gorrissen Federspiel

Partner **Tue Goldschmieding**, Gorrissen
Federspiel

16.25-16.40: Precision Over Promises

Legal AI is brimming with promise. It's a text-rich, high-stakes field tailor-made for large language models. Yet most tools on the market stumble for one simple reason: they try to do too much at the expense of precision. Vesence flips the legal AI model on its head. Instead of generating new text that might be wrong, it uses AI to ensure that what's already written is right.

Co-Founder & COO **Ludvig Swanström**, Vesence

16.40-16.50: AWARD: LEGAL TECH COMPANY of the Year 2025

Danish Industry
Dansk Virksomhedsjurister
IT Branchen

16.50-17.30: Networking Reception
